THE ARC OF LUZERNE COUNTY CELEBRATES 50 YEARS OF SERVICE

HON. PAUL E. KANJORSKI

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, January 8, 2003

Mr. KANJORSKI. Mr. Speaker, I rise today to call the attention of the House of Representatives to the service to the community of the Arc of Luzerne County, PA, which was founded in 1952 as the Wyoming Valley Council for the Mentally Retarded. The Arc will hold its 50th anniversary celebration on January 15, 2003.

Like many nonprofit organizations, the Arc of Luzerne County started as a small group of parents trying to make a better life for their

children. Today, the Arc has become an influential advocacy organization serving all people with mental retardation and related developmental disabilities and their families. The local organization also benefits from its affiliation with the state and national Arc.

Among the many accomplishments of the Arc of Luzerne County is the Community Resource Center, which opened in July 2000 to serve people in six northeastern Pennsylvania counties. Since opening, the center has provided a creative arts program and other community integration activities, as well as up-to-date information and a place for the people it serves to meet with each other and with caregivers and service providers.

The Arc of Luzerne County also has a long history of working to improve the support services offered to children and adults with mental retardation and related developmental disabilities. In addition, the organization provides representative payee services and independent monitoring teams that assess the quality of residential facilities.

Mr. Speaker, I am pleased to call to the attention of the House of Representatives the half-century of service to the community of the Arc of Luzerne County, and I commend its members for their hard work and dedication.

PAYING TRIBUTE TO: MANCOS FIRE PROTECTION DEPARTMENT

HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, January 8, 2003

Mr. McINNIS. Mr. Speaker, it is with great pride that I rise today to recognize the Mancos Fire District for their service and dedication during one of Colorado's most formidable fire seasons. Last summer, the Mancos Fire Department played an integral role in containing the Missionary Ridge forest fire that burned over 70,000 acres in Southwestern Colorado. Today, I would like to pay tribute to their heroic efforts before this body of Congress and this nation.

When the Missionary Ridge fire first erupted last June, the citizens of Durango, Bayfield, and the surrounding communities called upon the Mancos Fire District to protect their loved ones, homes, and communities from what would become the worst fire in area history. The fire began in a ditch beside Missionary Ridge Road just 15 miles northeast of Durango and grew to consume more than 70,000 acres, 56 residences, and 27 outbuildings.

Although the Missionary Ridge fire was a devastating reminder of how destructive forest fires can be, it also served to remind us of the men and women who risk their lives to protect their fellow citizens on a daily basis. The Mancos Fire District has served the citizens of Colorado for many years and has a reputation for its outstanding service. The district relies upon its volunteers to remain on call, prepared to fight fires or provide medical assistance on a moment's notice.

Mr. Speaker, it is with sincere admiration that I recognize the Mancos Fire District before this body of Congress and this nation. I want to commend all of the Fire District's fire fighters for their determination, courage, and resolve during last summer's efforts on Missionary Ridge. Without the help of the Mancos

Fire District and others, the added devastation to our community, environment, and quality of life would have been unimaginable. Their tireless commitment throughout last summer's fire season has served as an inspiration to us all and it is an honor to represent such an outstanding group of Americans in this Congress.

SAN JOAQUIN RIVER RESTORATION ACT

HON. DEVIN NUNES

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, January 8, 2003

Mr. NUNES. Mr. Speaker, I rise today to take the first of many steps to improve the water situation in the San Joaquin Valley of California. Today, the San Joaquin Valley continues to face a water crisis in which our water supplies have become inadequate to meet expanding needs. Demands by domestic users, industry, and environmental needs continue to grow with no relief in sight. One of my top priorities in Congress is to address this water crisis and begin the long process of constructing much needed water storage for the Central Valley.

Today, I have introduced the San Joaquin River Restoration Act which will take the first step to construct a major storage facility on the Upper San Joaquin River. This legislation directs the Secretary of the Interior to conduct a study to determine the feasibility of increasing water storage capability on the Upper San Joaquin River. Furthermore, this legislation directs the Secretary to investigate the feasibility of increasing power generation, improving water supply reliability and quality, improving water management efficiency, and improving ecosystem function and flood control on the river in the area of Temperance Flat.

This new storage capability on the San Joaquin River will go a long way to meet the needs of the 15,000 farmers in Madera, Fresno, Tulare, and Kern counties. While my efforts to increase storage capacity on the San Joaquin River are vitally important to our water future, it must be part of a larger water storage plan. In the coming decades, the growth in our Valley will only worsen our water crisis. Now is the time to increase our water storage and efficiency for the future. I look forward to working with my colleagues on the San Joaquin River Restoration Act.

SOUTHERN BORDER AIR QUALITY PROTECTION ACT

HON. DUNCAN HUNTER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, January 8, 2003

Mr. HUNTER. Mr. Speaker, I proudly represent Southern California communities, many of which are along the U.S.-Mexico border. These border communities, by and large, have a good working relationship with their neighbors in Mexico. Unfortunately, their proximity to the border causes them to suffer the consequences of Mexico's more lax environmental requirements, especially with respect to air quality. As we all know, air does not respect the international boundaries we put in place and, as a result, border communities are
